EZ PILOT PRO STEERING WHEEL

The EZ Pilot Pro Steering Wheel provides a steering solution for all Kioti non-steer ready tractors. This system replaces the original steering wheel with an electrically driven system providing an Auto steering solution when a Trimble Powered GFX-750 and NAV 900 are fitted. This system works with all correction services and is a cost-effective solution to make the tractor steer automatically.

NAV-900 GUIDANCE CONTROLLER

The NAV-900 guidance controller is our most advanced GNSS receiver to date, built for maximum uptime and a wide range of accuracy options from basic to high precision. It is designed to mount on the roof of most agricultural vehicles to provide positioning and guidance, including autosteer.

GFX-750 DISPLAY

The Trimble® 10.1" GFX-750™ display continues a strong tradition of sleek, easy-to-use displays from Trimble Agriculture. With a roof-mounted guidance controller, your cab will be clean and clutter-free with this automated guidance system. Add in Bluetooth and Wi-Fi connectivity to go along with ISOBUS compatibility and you can tackle farming applications from every season across all of your equipment brands.
